

HydroDry™

Dryer

Molded-in offset handle is designed to make the HydroDry™ easy to carry

Molded housing is designed to sit flat or at 45° or 90° angles to direct air as needed

The Euroclean HydroDry™ blower quickly facilitates the drying of hard floors and carpets after scrubbing, waxing, finishing or extraction.

Easy to use and transport, the HydroDry™ blower helps dry wet basements, flooded areas, fresh paint, concrete sealer or any surface that needs to be dried fast. It works well to aid ventilation when used in hot, closed areas or to remove smoke and fumes.

The Euroclean HydroDry™ blower is easy to store with molded in-cord storage for its 25 foot, safety yellow cord. With its unique interlocking stacking feature several units can be stored in a small space. A sturdy molded-in handle helps balance the HydroDry while carrying. With the optional wheel/handle kit multiple units can be easily transported.

The Euroclean HydroDry™ moves 1,600 – 2,500 cubic feet of air per minutes (45.3-70.8 m³/min). The powerful three-speed motor is quiet-running and efficient. At the low as 57 dB A noise level, the HydroDry™ can be used anywhere and at any time.

The HydroDry™ housing design provides three stationary positions for directing air flow either flat over surfaces or upward at a 45° or a 90° angle.

The HydroDry™ is perfect for...

- Drying Carpets
- Drying Floors
- Drying Paint
- Cooling
- Ventilating

Euroclean

TECHNICAL SPECIFICATIONS

Motor	1/2 hp, 3 Speed, Single Phase, 115 V / 50-60 Hz
Fan	Painted Steel 10.5 in (26.7 cm) dia
Fan Speed	2,500 cfm (70.8 m ³ /min) @ 1,150 rpm 2,000 cfm (56.6 m ³ /min) @ 900 rpm 1,600 cfm (45.3 m ³ /min) @ 750 rpm
Housing	Rotocast Polyethylene
Power Cord	25 ft (7.62 m) 3 prong
Noise Level	57 dB A @ 750 rpm 59 dB A @ 900 rpm 73 dB A @ 1150 rpm
