

# WhisperClean®

## Canister Vacuum Cleaner

The WhisperClean® canister vacuum cleaner was designed from the ground up to have the best value proposition in the industry. WhisperClean combines quiet sound for daytime cleaning with a powerful motor for the ultimate performance along with innovative filtration options and exceptional serviceability.

WhisperClean is designed for use in health care facilities, restaurants, offices and hospitality facilities. With a sound level of only 53 dB A, daytime cleaning is now a reality.

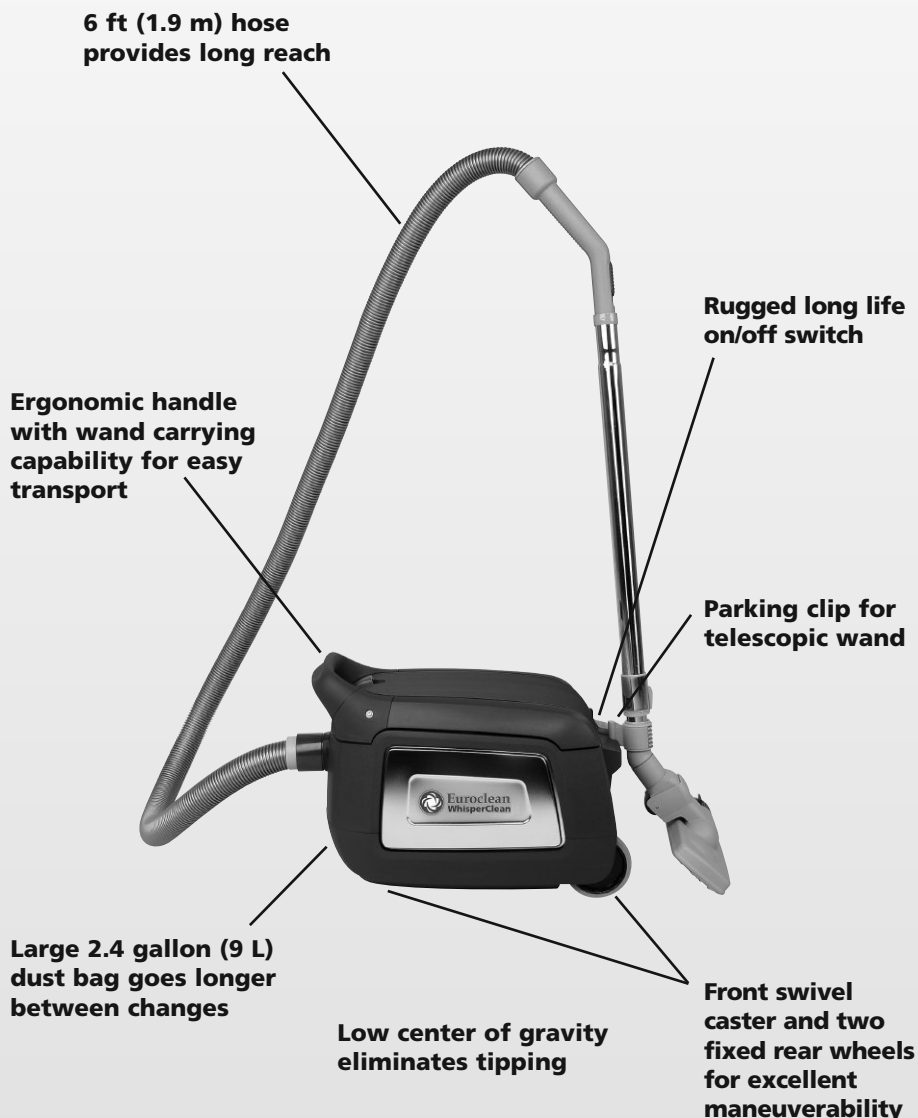

The 1200 watt, 1.6 hp motor supplies plenty of power to clean hard floors, carpets, upholstery and more. The slide control on the wand handle adjusts air flow to clean drapery, lampshades, and other delicate surfaces.

Best in class filtration helps preserve indoor air quality and keeps your facility cleaner. The WhisperClean vacuum is the first commercial grade vacuum that offers optional pre and post fan H.E.P.A filters. A 2-ply 2.4 gallon paper bag, foam filter, multi-layer paper filter and motor protection filter come standard. Capturing more dust at the source means less cleaning later.

### The WhisperClean® is perfect for...

- Supermarkets
- Schools and Universities
- Retail
- Healthcare
- Office Buildings
- Restaurants
